# HARVEY'S CRYSTAL BARGAINS

Crystals for all ham bands in standard mountings with half-inch spacing. Our stock includes nearly all the frequencies in the 80-40-20 meter bands. Specify the frequency you want and we will ship the closest exact frequency Harvey Special Price.....\$1.00, plus 10c for packing and postage

Lucite crystal adapter. Takes crystals with half-inch pin spacing and fits three-quarter inch or octal sockets. Spring clips grip the crystal lugs to assure good contact. Harvey Special Price.....35c, postage 10c additional unless ordered with crystal.

5 Mc. precision crystal. A real value! Grade A crystal, in mount. Has many uses in precision work. While they last, Harvey Special Price.....\$1.95

HARVEY has other crystals, all standard brands, in stock. The crystals above are typical of the outstanding values you'll find here in receivers, transmitters, parts and tubes. If it's for your rig, try HARVEY first!

**BIG MONEY  
QUESTION**

## Who can build better HAM equipment for HAMS than HAMS?

We feel that the answer to this question is shown by the quality and dependability of BUD products. BUD products are made by and for hams.

Our President, W8VCC, our Chief Engineer, W8CTI, and all of the other hams in our employ are constantly seeing to it that BUD products are "ham-minded." Each and every piece of equipment in the BUD catalog is checked and re-checked in a transmitter right in our plant to make sure that it comes up to the high standards required by the radio amateur of today.

We feel confident that your transmitter will operate at top efficiency if BUD components are used throughout. BUD can supply all of your needs, so why not make your transmitter uniform by using BUD all the way?

REMEMBER it's BUD for condensers, coils, chokes, plugs, jacks, wave-meters, test-leads, insulators, dials, switches, jewel lights and a complete line of ultra-modern cabinets, racks and chassis.

## THE HAM CORNER

## WHERE WE ALL MEET

THIS IS WALT ZUCKERMAN, W2LBF,  
MANAGER OF SUN RADIO'S HAM DEPT.,  
WITH A COUPLE OF HINTS TO HELP YOU  
GET THE MOST OUT OF YOUR RIG—  
WHILE SAVING MONEY. AVOID  
SLIPS WITH THESE TIPS.

## HINTS For Better and Cheaper Operation

If you're a victim of signal emission, due to condenser discharge, after the transmitting switch has been turned off, try this sure-fire way of getting immediate zero plate potential.

## THIS CIRCUIT WILL:

1. Immediately discharge your filter condenser.
2. Prevent your own signal from blocking reception after you've turned the xmitting switch off.
3. Insure rapid break-in by eliminating a slowly fading oscillator signal.

If one of your big problems is getting the equipment that spells the difference between a "fair" QSO and one that's really FB, just remember this:

"See your distributor" always means "See Sun Radio"! Sun's huge stocks and speedy delivery mean extra hours of pleasure for you. We know our service is super because our customers have been telling us so for 25 years.

FROM NOW ON  
I'LL BE GIVING YOU  
HINTS ON BETTER  
OPERATION

Who is this character? Read September and October QST and get the thrill of your life.
